DETAILED ACTION

Election/Restrictions

1. Claims 23,24,26,27 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to nonelected inventions, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 8/14/2007.

Applicant's election with traverse of Group I, claims 15-17 and 25, is acknowledged. The traversal is on the ground(s) that "independent claims 15 and 23... are closely enough related that they represent specific clarifications of the broader and generic subject matter of the claims prior to amendment", "Applicants believe that the claimed subject matter has previously been exhaustively examined", and "the subject matter of all claims is sufficiently related that a thorough search for the subject matter of any one Group of claims would encompass a search for the subject matter of the remaining claims". In response, Applicant's arguments are not persuasive.

The claims prior to amendment were broad enough to encompass art outside of Applicant's intended invention; hence the rejection over Ferrara in the Action filed 1/17/2007. Further, in the amendment filed 4/17/2007, the Examiner notes that claim 15 has been amended to include three new method steps and modify a previously presented step enough to change the scope of the invention. At least for these reasons, a further search is required. Finally, none of the method steps in any of the independent claims overlaps.

The requirement is still deemed proper and is therefore made FINAL.

Applicant's arguments filed 4/17/2007 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claim 25 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 25 is not distinct as to what the applicant is claiming by attempting to structurally limit the storage medium within the method claim. What method step is being claimed here?

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 15-17,25 are rejected under 35 U.S.C. 102(b) as being anticipated by Snowdon PGPub 2002/0080386.

Snowdon discloses a method for performing a postprocessing with respect to an image forming member on which an image is to be formed, the method comprising: receiving image data and instruction for attaching a storage medium, forming an image on an image forming member based on the received image data, stapling a staple needle, to which a storage medium is attached, to the image forming member on which image formation has been started, writing the received image data into the storage medium, wherein the storage medium is attached to the image forming member after a process of fixing or transferring the image onto the image forming member (¶¶0006,0008,0020).

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 3651

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
